

Our clientele

• The growing client list of the company alone speaks about our products and services, which have been greatly appreciated by our customers. It is due to the quality and efficiency offered by us that our company gets an edge over our close competitors. Our list of clients includes:

- Transmission Corporation of Andhra Pradesh (APTRANSCO)
- Andhra Pradesh Central Power Distribution Company Limited (APCPDCL) (APSPDCL) (APNPDCL) (APEPDCL)
- Bharat Heavy Electricals Limited (BHEL)
- Rasi Cements
- Indian Airlines
- Airforce Academy
- National Thermal Power Corporation (NTPC)
- Larsen & Toubro ECC Division
- Indian Railways
- Government and semi government organizations
- Pharma Industries
- Engineering Colleges & Appartments
- Water Works Department
- Star Hotels & Multiplex

A world class company offering high precision and excellent performance durable transformers at competitive prices...

A world class company offering high precision and excellent performance durable transformers at competitive prices...

Know us

Electricity is the most essential requirement of today's hi-tech and extremely busy world. Be it our domestic lives or our professional lives, everything comes to a standstill in the absence of electricity. A safe use of electricity involves the use of transformers, as they help tackle load shedding and power fluctuations. SS ETE Transformers, is a brand name that is well known in the arena of manufacturing high quality transformers.

Incorporated in the year 1992, we are a well established and reputed manufacturer, supplier and trader of safe and high performance transformers, standard transformers, voltage transformers, power & distribution transformers, etc. Our hassle free and shock proof transformers come in the range of "15-8000 KVA". We are also a trusted service provider undertaking various services like transformer erection, oil filtration and commissioning of 100 MVA power transformers.

Customer-centric approach

Being a customer oriented company, our first and foremost priority lies in designing transformers that are high on performance and low on cost. These transformers are designed bearing in mind the safety and security of the customers. They are dispatched on time to our customers and offered at competitive prices.

With new and improved methods being discovered, we are constantly trying to bring technical innovation to our products by making them more and more user friendly. Customers' valuable suggestions and feedback are always welcome. Over the years, we have earned a substantial market base in the domestic market, by consistently supplying quality products following transparent trade practices.

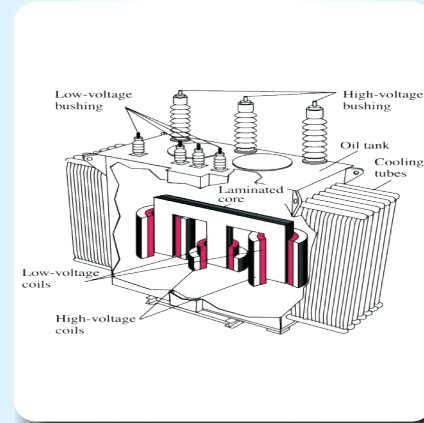

Products we offer

- Highly efficient and durable transformers are what you find at SS ETE Transformers. We are a reputed manufacturer, supplier and trader of the following range of products:
- BEE Star Rating Transformers
- Standard Transformers
- Voltage Transformers
- Power & Distribution Transformers

Reliable Services Offered

We offer highly reliable services to our esteemed customers, complemented with cost effective solutions. SS ETE Transformers is a service provider offering these highly competitive services:

- Transformer Erection (100KVA to 100 MVA)
- Oil Filtration
- Commissioning of 100 MVA power Transformer

Star Rating

The Transformers manufactured by SS ETE Transformers have been approved 3-Star & 5-Star Rating by Bureau of Energy Efficiency (BEE).

Memberships

We are a member of the following Prestigious establishments such as:

- Khadi & Village Industries Commission (KVIC)
- Small Scale Industries (SSI)
- Andhra Pradesh Industrial Infrastructure Corporation (APIIC)
- Industrial Development Area, Medak District.

Quality Assurance

Quality is of paramount importance here at SS ETE Transformers. A full fledged testing facility with all the latest testing equipments forms the part of total quality management system. All the tests conducted at our workshop are as per the IS 2026-1981 and BIS standards. Highly intensive tests are undertaken to confirm their quality like turns ratio test, DC resistance test, Separate Source Voltage Test (SSVT), Inter Turn Over Voltage Test (IOVT), Oil Breakdown Voltage Test, Temperature rise test, OC & SC Test, No-Load & Load Losses Measurement etc.

Raw materials are chosen after careful research and consideration. These Materials include CRGO, windings, insulators, oil, assembly & tanking, etc. They are sourced from highly reliable sources and used only after complete tests reveal that they are fit for use.

Team at SS ETE Transformers

With an experience of over 32 years, the team at SS ETE Transformers has enabled the company to scale new heights of success. It is solely due to the untiring efforts of highly experienced engineers that today we are counted as one of the foremost business concerns of the country. They are skilled in all arenas of the manufacturing process and possess expertise in their discipline.

Our Setup

SS ETE Transformers enjoys an impeccable Infrastructural setup having a capacious production unit allotted by Andhra Pradesh Industrial Infrastructure Corporation (APIIC), at Plot No: 'B', Phase - I, IDA, Pashamylaram, Medak District. The production unit is replete with all the modern machines of the latest technology.

These state-of-the-art machines ensure continuous flow of high quality transformers throughout the production process. We also possess a fully equipped warehouse that has the capacity to stock any amount of products to feed the bulk demand in an organized manner.
